TECHNICAL SKILLS

AWS | Linux | Windows | Terraform | Bash Scripting | MySQL

WORK EXPERIENCE

Cloud Data Engineer, ScaleCapacity   06/2023 – Present
- Identifying, creating, and preparing data required for modern BI solutions using AWS
- Creating and documenting the tests to meet requirements
- Shadow data and analytics experts to strive for greater functionality in our data systems

Linux/Cloud Engineer, Quest Logic Solutions   10/2022 – 06/2023
- Migrating on-prem Active Directory 2012 to Active Directory 2019
- Experience joining Linux and Windows OS to Active Directory
- Build dev environment using Terraform script to deploy resources to AWS
- Create documentation, user guides, diagrams and SOPs as needed
- Writing shell scripts for various tasks such as back-ups, collecting logs, installation, and monitoring

Cloud DevOps Engineer, Canditude   02/2022 – 10/2022
- Designed, deployed, and monitored cloud-based infrastructure for clients using Terraform
- Improved client incident management lifecycle to identify, mitigate, and learn from reliability risks
- Researched to develop new skills with unfamiliar tools and technologies for quick and effective adoption
- Worked on AWS CI/CD pipeline jobs for end-to-end automation to commit, build, test, and troubleshoot issues during the build process
- Shadow senior engineers for continuous improvement and knowledge transfer
